Since its inception, American Tourister has constantly re-invented itself to stay relevant to the youth. The brand has always believed in staying trendy and designing products that meet the evolving tastes of the consumers.

All American Tourister products are designed to inspire that sense of confidence in people to venture out, no matter what the purpose of their journey. This intent of the brand is best brought alive by none other than Virat Kohli. He is not just one of India’s most popular youth icons but is also an exemplary embodiment of the very notion of what it means to be ready to take on any journey.

The collection embodies this brand philosophy! It comprises of pop colours, innovative technology and practical features. With Tech Wrap Interior packing or a three point locking system in the suitcase range, Tractum Suspension and rain cover in the outdoor gear range or Tape Rear panel or multi-stop trolley in the business range; be sure to be spoilt for choice by this American Tourister collection!

“I think great travel gear today is more than just a utility or luggage. It symbolizes an attitude - to always be ready to go forth, step out and embark on your journey, no matter whatever it’s for with profound confidence. American Tourister in many ways reflects & encourages this attitude with the way they’ve designed their products.”

– Virat Kohli
